Member comments: Mark Braunstein talked about

1. handicapped accessibility: HC parking near accessible exit, which would be in the rear. Have a cash register at the back for people using that door.
2. vegetarian and vegan issues – it is very off-putting to have meat and other animal products at the very top of the main Fiddleheads web page. Will not eat pancakes because meat is being cooked, served and eaten in the same area.
3. Ask vendors to comply with the “whole, natural” foods part of our mission statement.
4. create standards for what we will carry and education for vendors, members and other people.
- 5.
