III. Floor Refinishing Project

1. There was a consensus that the GM would make a proposal regarding refinishing the floor.
 - 1) Proposal 1: A company would come in and grind the floor and install vinyl tile. The store would remain open and the tile would be installed a section at a time when the store was closed. The cost was quoted at \$16-17,000. The tile would need to be maintained for as long as the tile lasted.
 - 2) Proposal 2: The Company would come in and grind the entire floor and we would apply 3 coats of epoxy. Each coat requires 24 hours to dry. We would remove all the product and equipment and return it after the final coat was dry. We will determine the color but the Health Department requires a light color. The GM provided a schedule attached to these minutes that
